EDUCATION

University
Lovely Professional University

07/2017 - Present   *Phagwara,punjab,India*

B.Tech
- CSE

12th
Govt. Boys Senior Secondary School

07/2013 - 07/2016   *Delhi,India*

10th
Pt. Deen Dayal Intermediate College

07/2011 - 07/2013   *Maharajganj,up,India*

PERSONAL PROJECTS

Quiz Module Game
- **This project is about designing a Graphical User Interface using python programming to design a QUIZ MODULE GAME with proper interface**

Anomaly Detection System in Survillance Videos
- The aim of the project is to find anomaly form a given surveillance video and I designed intelligent system which takes video as input and gives output as the given video contains anomaly or not.

Personal Loan Prediction Using Data Science
- I automated the loan eligibility process based on customer details provided while filling online application form.

SKILL

Data Science ：Machine Learning, Python with Numpy and Pandas

Programming Technologies ：C++ , JavaScript

ACHIEVEMENTS

C++ Completed

ORGANIZATIONS

CID(Crime Investigating Detective)

Act The Fact

CERTIFICATES

Machine Learning
Certified in machine learning from Splen Technologies & Education Pvt. Ltd

LANGUAGES

HIndi
Limited Working Proficiency

English
Full Professional Proficiency

INTERESTS

I like to solve algorithms and mathematics problems
